

# MUAZAM ALI

## Computer Science Student

✉ muazamalisarwarofficial@gmail.com ☎ +923268848703 📍 Lahore, Pakistan 🔗 Portfolio 🌐 LinkedIn 🐙 Github

### SUMMARY

Results-driven Computer Science student (CGPA 3.74/4.0) at University of Education Lahore with hands-on experience in full-stack development, Android application development, and AI/ML-based computer vision systems. Proficient in Python, Java, C++, and JavaScript with practical knowledge of RESTful APIs, OOP design patterns, Firebase, and SQL/NoSQL databases. Experienced with Agile/Scrum methodologies through two internships involving ERP and CMS platform development. Seeking a Software Development or AI/ML internship to contribute to real-world engineering teams.

### PROFESSIONAL EXPERIENCE

**Software Development Intern — ERP Implementation Team** 09/2024 – 11/2024  
*Askari Colony Management (ACM), Lahore (Askari 10)* 🔗 Lahore-Askari 10

- **Assisted in deploying** an ERP complaint management system across 10+ residential offices, reducing manual request routing for maintenance staff (technicians, plumbers, electricians).
- **Improved UI components** and form workflows, contributing to an estimated 20% reduction in complaint handling response time.
- **Collaborated with stakeholders** to gather business requirements and validate ERP module integration into daily operational workflows.
- **Executed debugging**, system testing, and issue resolution cycles; resolved 15+ functional defects prior to go-live.
- **Supported process automation** initiatives to digitalize maintenance request handling, reducing paper-based coordination.

**CMS Development Intern — Backend Automation & Database Systems** 03/2025 – 05/2025  
*Minhaj University Lahore, Lahore* 🔗 Lahore

- **Developed and automated 3+** backend modules for the university CMS, reducing manual administrative workload by approximately 30% through streamlined data processing workflows.
- **Designed and implemented SQL-based database operations**, improving data retrieval speed for administrative records management.
- **Applied OOP principles** and REST API design patterns to improve maintainability and modularity of backend components.
- **Collaborated in a cross-functional** Agile team to test, debug, and deploy new features, contributing to 2 successful production releases within the internship period.
- **Performed system performance** analysis and code optimization, identifying and resolving 3+ bottlenecks in existing backend logic.

### EDUCATION

**BS Computer Science(7th Semester)** 08/2025 – Current  
*University Of Education-Division of Science and Technology* 🔗 Lahore

**CGPA: 3.65**  
Studying Bachelor of Science in Computer Science with a strong foundation in programming, software development, and problem-solving.  
Gained practical experience through academic projects and hands-on laboratory work.

**COMPUTER SCIENCE(ADP), Computer Science** 04/2023 – 07/2025  
*Minhaj University Lahore* 🔗 Lahore

**CGPA: 3.74**

**ICS With Physics, Computer Science** 01/2021 – 12/2022  
*Lahore College Boys Guldasht Town*

### SKILLS

**Programming Languages** ██████████  
Python, Java, C++, JavaScript, HTML, CSS

**Mobile Development** ██████████  
Android Studio, Firebase, XML Layouts

**APIs & Integration:** ██████████  
RESTful API Design, Postman, JSON

**DevOps (Basic Exposure)** ██████████  
CI/CD Concepts

**Frameworks & Libraries:** ██████████  
Android SDK, React.js (basic), Node.js (basic), Spring Boot (basic), Pandas, NumPy, scikit-learn

**AI / ML & Computer Vision** ██████████  
OpenCV, MediaPipe, TensorFlow (basic), Machine Learning (supervised/unsupervised)

**Tools & Databases** ██████████  
Git/GitHub, Linux, VS Code, MySQL, Oracle 21c, Database Design, FireBase, Office 365

## CERTIFICATIONS AND LICENSES

---

### Python Essentials 1 & 2

Issuer: FreeCodeCamp

### Advance SQL Hard Certification

Issuer: Skill Certify

### Prompt Engineering for ChatGPT

Issuer: Coursera

### Web Development Fundamentals

Issuer: IBM SkillsBuild

### C++ Essentials 1 & 2

Issuer: FreeCodeCamp

### Introduction to Networks (CCNA 1)

Issuer: Cisco Networking Academy

### Software Development Lifecycle (SDLC)

Issuer: Coursera

### Pitman International & Global Training Centres-English

Year: 2024

## PROJECTS

---

- **Bank Management System** | Java, MySQL, OOP, Data Structures Banking application for customer account management, transaction processing, and balance tracking.
- **CRM System** | Python, MySQL, OOP, CRUD Operations Customer relationship management platform for lead tracking, customer records, and workflow management.
- **Gender and Age Detection System** | Java, OpenCV, Deep Learning, Image Processing AI-powered application for age estimation and gender classification from facial images.
- **Virtual Assistant** | Python, Speech Recognition, NLP, Automation Voice-controlled assistant capable of command execution, web search, and task automation.
- **Node.js Security Project** | Node.js, OWASP, Web Security, Vulnerability Assessment Security testing environment used to analyze and document common web application vulnerabilities.
- **Qt Bitcoin Trader** | C++, Qt Framework, REST APIs, Real-Time Data Cryptocurrency trading platform integrating live market data, order management, and trading analytics.
- **Taskcafe Project Management System** | Node.js, React.js, PostgreSQL, REST APIs Collaborative task management platform supporting project tracking, workflow automation, and team coordination.
- **Namaz Tracker Dashboard** | HTML, CSS, JavaScript, Chart.js Interactive dashboard for prayer tracking, progress monitoring, and performance visualization.
- **Hospital Emergency Room Scheduling System** | Java, Data Structures, Priority Queues, Algorithms Patient triage and scheduling system optimizing emergency room resource allocation and wait times.
- **Hardware Logic Simulator** | Java, Digital Logic Design, Boolean Algebra Logic circuit simulator for designing, testing, and validating digital gates and combinational circuits.
- **University Portal Automation System** | Python, SQL, Database Management, Automation Academic management platform automating enrollment, scheduling, and administrative workflows.
- **Student Management System** | Java, MySQL, OOP, Database Design Information management system for student records, attendance tracking, and academic reporting.
- **Cisco Networking Labs** | Cisco Packet Tracer, VLANs, OSPF, TCP/IP, Network Security Configured enterprise network topologies including routing, switching, VLANs, and security implementations.
- **Interactive Materials Tracker** | HTML, CSS, JavaScript, Database Management Inventory management system for tracking materials, stock levels, and operational workflows.
- **Brightness Control Using Hand Gestures** | Python, OpenCV, MediaPipe, Computer Vision Gesture-controlled application that adjusts system brightness using real-time hand tracking.
